

# ISMILE KIDZ UNLIMITED

## ISMILE KIDZ UNLIMITED

conducts creative programs for children (3-6 years old) every Friday 2 - 4pm such as :

- stepping into the lives of various professions/artists and get an insight to what they do,
- learning through photography and technology,
- be a radio DJ,
- public speaking,
- trips to various countries and learning about the different cultures, food etc.

For this term, we have carefully prepared programs touching on professions. Children love to be doctors, pilots, firefighters, nurses, architects, artists, zoo-keepers, teachers and many more. These 2-hour programs packed with engaging activities stimulate the senses and the curious minds of your little ones to explore and learn. ISMILE@ Plaza Indonesia has the unique and distinct advantage of providing extension to learning.

Our first **ISMILE KIDZ UNLIMITED** weekly profession is:

A Day in the life of **Piet Mondrian** - the Dutch painter who created a geometrical abstract style which had widespread influence on modern painting, architecture, and design.

Kids will learn the art techniques and have hands-on experience in constructing one-of-a-kind Mondrian-style art pieces, visit to art gallery, etc.
